☒ Please check if any of the above information has changed since previous year.

## II. Mining and Reclamation

1. Was the mine active during the past year? Yes \_\_\_ No x
2. If active, how much ore or mineral was mined? \_\_\_\_\_
3. How much **additional acreage** was disturbed during the past year? none
4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

Although no disturbance involved mining activity, an approximate 1.5 acre test plot for the proposed visual buffer corridor south of Interstate 80 was established. Three hillocks approximately 75 ft. x 300 ft. x 5 ft. high were constructed for planting.

5. How much acreage was **reclaimed** during the past year? none
6. Briefly describe the reclamation work performed during the past year. This description should include methods employed and an evaluation of the results.

Although no reclamation was performed during the year, the hillocks described under number 4 above were planted with trees, shrubs, and grasses. Since the planting occurred at the very end of the fall planting season, no results are available for evaluation.

7. What is the **total disturbed acreage** at years end? 2977 acres by prior owners
8. Briefly summarize any mining and/or reclamation plans for the upcoming year.

No mining or reclamation is planned for 1995; however, Salt Lake City and Salt Lake County will continue to remove the existing pile of salt that was harvested a number of years ago. After all the permits and other approvals for the North Impoundment construction are obtained, site preparation will commence.

NOTE: Section III. "Additional Information" applies only to large mining operations.

## III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

## IV. Signature Requirement
